ENGINE HOURS 100 h	

DESCRIPTION

A Princess S80 built in 2025, offered in near-new condition with just 100 engine hours, lying on the French Riviera. This sportfly model combines expressive sporting aesthetics, strong performance and the enlarged interior volumes typical of a flybridge yacht. It is a rare opportunity to acquire a current yacht without a build wait and at a significant saving over a new order from the yard. The main-deck layout is oriented towards comfort and socialising, with a spacious cockpit — one of the largest in its class — flowing seamlessly into the saloon, and panoramic glazing filling the interior with light. The galley is integrated into the living area. Below are four elegantly finished cabins with individual bathrooms for up to eight guests; the full-beam master offers a high level of privacy and comfort, and the forward VIP is equally well considered. Separate crew quarters for two complete the yacht.
