## DESCRIPTION

The flagship of Princess Yachts was unveiled in 2020. The yacht's wide hull is designed so the X95 can be operated in any weather, at any latitude, while burning fuel efficiently. The extensive glazing of the decks speaks not only to Princess Yachts' mastery of glass—a material now highly sought after in yacht construction—but also to the fact that views from anywhere on board will be stunning and that the saloons, both upper and main (on the main deck), will be filled with light throughout the day. This, as we know, is the best way to expand space.

Three layout options are available for the main deck of the Princess X95: with a master stateroom forward, with a spacious lounge and dining area, or with a lounge, dining area and cinema. On the lower deck, in addition to four luxurious staterooms, one can design either a more spacious crew area or, conversely, a more compact one. The flybridge can be fitted with a jacuzzi.

## EQUIPMENT

DECK EQUIPMENT

Yachts on the commission of Crystal Yachts Georgia. The company is not responsible for the accuracy of the information provided by the shipowner, including images, specifications, parameters, engine performance and legal details. Engine hours and equipment lists are indicated at the time of preparation and may change during further operation. The need for inspection remains at the discretion of the buyer. Exact parameters and characteristics can be specified in the sale and purchase agreement. Additional information is available from the manager on request.

CRYSTAL YACHTS GEORGIA
