DESCRIPTION

Princess Yachts presents the all-new F54 — an evolution of the award-winning F50. The model features bold design, increased dimensions and, for the first time in its class, an available hardtop option.

Powered by twin Volvo D13-900 engines, the Princess F54 reaches speeds of up to 34 knots while maintaining the signature smooth ride, efficiency and excellent handling. The redesigned stern with a new bathing platform, convenient walkways and adjustable seating transforms the waterside area into an ideal place to relax.

The flybridge features a spacious dining area with a folding teak table, sun loungers and a bar with grill, refrigerator and sink. The foredeck now combines a sofa, sun lounger and removable table — a space designed for relaxation and sunset aperitifs.

The main deck has a new layout: the galley has been moved aft and complemented by a separate dining area, creating a sense of airiness and space.

Below deck are three comfortable cabins:

- a full-beam master cabin with en-suite bathroom,

- a forward VIP cabin,
- a twin guest cabin with berths that can be joined together.

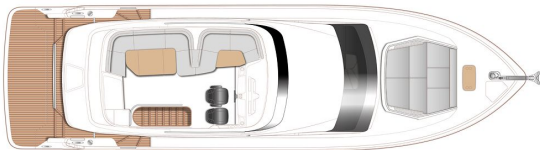

A crew cabin, washing machine, extended fuel tanks and gyro stabilisation are available as options.

The Princess F54 is equipped with the Princess Connect system, which allows real-time monitoring of the yacht's status, engine diagnostics and routes via a mobile app.

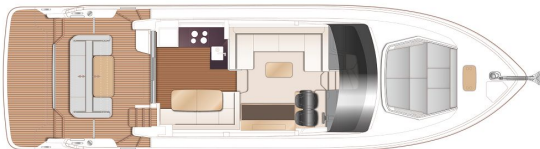

This model is a symbol of the new F Class generation: more space, more comfort and a flawless balance between power, elegance and innovation.
