YEAR 2027	

DESCRIPTION

The Princess S74 is the latest evolution of the S Class range, scheduled for release in 2027. Built on the award-winning S72 model, the S74 combines dynamic performance characteristics with an improved exterior deck layout and updated interior specification.

The yacht's exterior is accentuated by full-height hull windows and a revised hull design that enhance her sporting character. The cockpit features convertible seating areas, while an integrated sunbathing zone is positioned above the garage, sized for a tender up to 3.9 m in length, launched via an electrohydraulic bathing platform. The foredeck also provides dedicated areas for outdoor relaxation, and the sportbridge is equipped with twin helm positions, a dining area, folding tables and a bar with grill.

The main deck is organised around several lounge and dining areas and includes a bar cabinet with storage for bottles and glasses, refrigeration equipment, a 55-inch UHD LED television and a Naim audio system. The helm station features a twin instrument panel, adjustable captain's and navigator's chairs, and a panoramic sliding door to starboard. The centrally positioned galley is designed for extended passages and fully equipped: four-zone induction hob, combination oven, full-size fridge-freezer, dishwasher and ice maker.

Accommodation is arranged for up to eight guests across four cabins, including a full-beam master cabin with a dedicated staircase, ensuite and panoramic hull windows. Additional cabins comprise a forward VIP cabin with ensuite and two twin guest cabins. Crew accommodation consists of a separate cabin with two berths and its own bathroom.

Combining advanced engineering solutions, thoughtful use of space and comprehensive specification, the Princess S74 offers an ideal
