WATER CAPACITY 1 800 l	LENGTH OVERALL 29.1 m
YEAR 2021	

DESCRIPTION

This yacht shares much in common with the Princess X95, but distinguishes itself with more elegant architectural styling. If the X95 can be compared to a versatile SUV, then the Y95 is more like an SUV created by a marque specializing in supercars. The model handles confidently at sea even in rough weather. As for the interior, the key defining feature of the Princess Y95 is multifunctionality. The transformable swim platform can be configured as a "beach club" – just like on a superyacht. The future owner can customize the layout of communal areas and cabins within the existing floor plan. The Princess Y95 also shares its layout with superyachts: the master cabin is located in the forward section of the main deck and is so spacious that, in addition to the bedroom, bathroom and wardrobe, there is room for a lounge area with a sofa.

EQUIPMENT

DECK EQUIPMENT
